

ECIS INTERNATIONAL TEACHER CERTIFICATE

an exemplary international qualification for international teachers

The ECIS International Teacher Certificate is designed to equip teachers with the global mind-set necessary for successful teaching in the 21st Century. The ITC is an integrated, standards-based professional development experience assessed by University of Cambridge International Examinations. It requires in-depth critical thinking skills and reflective practice that is learner-centred and based on authentic school-based activity. The ITC is multi-cultural, multi-disciplinary and cutting-edge.

The International Teacher Certificate is based on five standards:

- education in an international and intercultural context
- teaching competencies for the international educator
- teaching students for whom English is an additional language
- student transition and mobility in international schools
- reflective practice—continuing professional development

"The ITC strengthened my confidence in both my teaching and in my ability to improve my school in meeting the needs of our students."

David Heath in China, ITC Teacher of the Year 2009

"I have enjoyed this journey and I have learned so much."

Gretel in England

The ITC is designed to for international educators across the whole school age range and subject areas. It is an one year online program that begins with a three-day institute hosted by international schools worldwide. For more information please go to:
